

Actionable insights that empower your school to drive excellence for all students.

Why choose the OECD Test for Schools?

The OECD Test for Schools recognizes that the goalposts for educational success are shifting. The benchmark is no longer improvement by national standards alone, but how the best performing education systems compare internationally – based on competency-based assessment.

As an educator, you know it's critical to prepare your students to enter a global economy with these competencies, including social and emotional skills, collaboration, creativity, critical thinking, innovation, and communication.

What is the OECD Test for Schools?

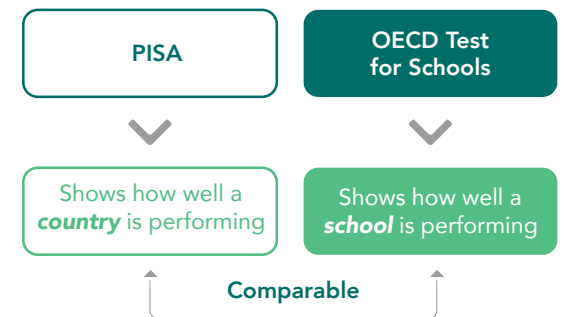

It's a school-level assessment designed to empower you to develop the types of knowledge, skills, and competencies that are relevant for your students in a rapidly changing world. A holistic "health check", the test provides valuable insights on your school's academic performance and its learning environment.

The test is based on the Organisation for Economic Co-operation and Development

(OECD)'s renowned *Programme for International Student Assessment (PISA)*.

How is it different from PISA?

While PISA delivers national-level results, the OECD Test for Schools delivers school-level results. Because both assessments are based on the same framework, the results are comparable, allowing your school to benchmark its performance with that of national education systems worldwide.

Fast Facts

15-year-olds

Like PISA, the OECD Test for Schools is designed to assess your secondary school students near the end of their compulsory education. A random sample of at least 42 students per school sit the test.

141 items

A digital assessment platform delivers questions which measure how well your students can extrapolate from what they know and apply this knowledge creatively to solve problems in novel contexts.

2 hours

The main assessment takes your students two hours to complete and consists of knowledge and skills questions in a variety of situations related to science, reading, and mathematics.

Student questionnaire

A 30-minute questionnaire uncovers test-takers' attitudes towards learning. It also allows you to look at their social and emotional skills, and to understand the impact of COVID-19 disruptions.

12+ countries

The test is delivered in more than 12 countries, including Australia, Brazil, China, Japan, Portugal, Russia, Thailand, the UAE, the UK, and the US.

Efficient, online delivery

The test runs on an award-winning online assessment platform delivered by the [Janison Education Group](#) and can be administered both online and offline.

The learning environment information in the OECD Test for Schools provides a leading indicator of academic outcomes. The results are like a 'health check' on your entire system.

Adam Stephens

Officer of Advanced Academics, Houston Independent School District, Texas

What will my school receive?

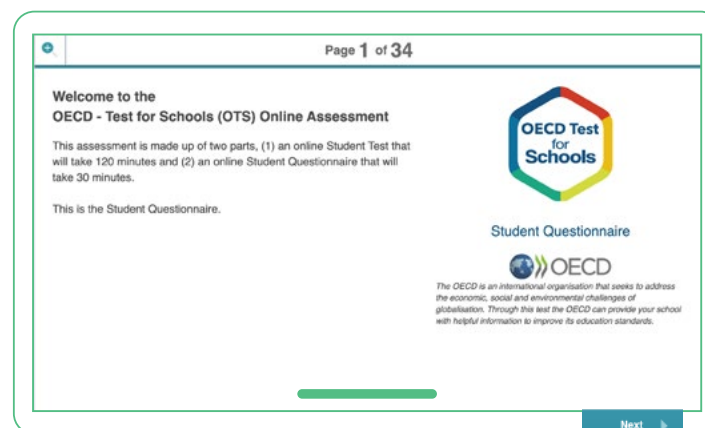

- ✓ Global benchmarks that allow your school to compare itself to others in the US and around the world
- ✓ Information that informs instructional practice improvements and program changes at a school level
- ✓ Insights into your students' social and emotional skills, their attitudes towards learning, their learning environment, and their socioeconomic background – helping your staff guide excellence and equity
- ✓ A comprehensive report on how your school performs in core subjects, applying knowledge and higher order thinking skills

OECD Test for Schools allows you to compare your school against the performance of your country in PISA, and that of other countries.

How is the test delivered?

The test is delivered on a new digital assessment platform. Schools will benefit from an enhanced dashboard and streamlined reporting structure alongside an array of other practical new features which allow them to explore their own data.

// The OECD Test for Schools is not just another test. It's a system diagnostic that provides rich and actionable data that districts can really use to drive their school improvement efforts.

Dr. Patricia Deklotz
Superintendent Kettle Moraine School District, Wisconsin
