

Update on NAPLAN and CA ANZ tests

Janison Education Group Limited (ASX: JAN), provides an update on the completion of digital assessment sessions for NAPLAN and Chartered Accountants Australia and New Zealand (CA ANZ) delivered by Janison and its partners.

Janison confirms approximately 4.5 million NAPLAN assessments were successfully delivered within the scheduled testing window – one of the largest digital assessment programs in the world. There was a limited disruption for NAPLAN, with testing paused for approximately two hours on the first day of the testing window (11 March) before resuming. Janison worked closely with stakeholders to swiftly identify and resolve the issue, minimising disruption to students and schools and ensuring subsequent testing proceeded without interruption.

Separately, the Company confirms it has now completed all CA ANZ assessments, including a limited number that were initially disrupted and which were successfully rescheduled and completed in the week following the disruption. Janison worked closely with CA ANZ to support impacted candidates, including through rescheduled arrangements. The NAPLAN and CA ANZ incidents were unrelated and occurred in different delivery environments.

Janison supports significant scale and complexity in the assessment programs it undertakes, including delivery across multiple regions, formats and devices.

The Company maintains strong relationships with its key partners and is continuing planning activities for future assessment programs and testing cycles.

This announcement has been approved for release by Janison's Board of Directors.
